Quotes for a one off cut of the grass at the cemetery.

Quote 1

To bring the grounds back into a tidy and manageable condition, the work will include:

- Strimming all grass around and between the gravestones
- Cutting the central pathway using a hand mower
- Collecting and removing the grass cuttings from the central pathway
- Leaving the cuttings around the perimeter and gravestone areas
- Completing **two cuts**, ideally, to achieve a tidy finish

The total price for this work is £1,200. (£600 each)

Due to the current length and condition of the grass, the work needs to be completed as soon as possible while the weather remains dry and in our favour.
